

Camel CIGARETTES

are delightfully smooth, fragrant and refreshing. They can't bite, parch or leave any unpleasant cigarette after-taste.

Camels are blended choice Turkish and choice Domestic tobaccos, more to your liking than either kind of tobacco smoked straight!

Compare Camel puff by puff, with any cigarette in the world. Test your taste, then you'll understand why men everywhere prefer them. No premiums or coupons, because cost of tobaccos blended in these cigarettes prohibits their use.

CAMELS sell 20 for 10c. If your dealer can't supply you, send 10c for one package or \$1.00 for a carton of ten packages (200 cigarettes), sent postage prepaid. If after smoking one package you are not delighted with CAMELS, return the other nine packages and we will refund your dollar and postage.

WORK ON PLANS TO AID FARMERS

Secretary McAdoo Perfecting Plans Already Outlined to Assist Marketing of 1915 Cotton Crop.

Washington, Aug. 24.—Secretary McAdoo was prepared today to extend financial aid to the Southern cotton growers to enable them to dispose of their crop to the best advantage. He announced that in view of the action of the allies in making cotton contraband he was ready if necessary to take either of two courses to help the cotton producers. One plan is to deposit thirty millions or more of gold in the federal reserve banks at Atlanta, Dallas and Richmond to enable the banks to rediscount loans on cotton by warehouse receipts made by national and state banks belonging to the reserve system. No interest would be charged on the deposits for the present at least.

The other plan is to deposit the gold directly with the national banks agreeing to lend money on the cotton at not over six per cent. The latter plan would be used if it would be more efficient.

Secretary McAdoo declared if bankers, merchants and producers would co-operate the situation could be handled with happy results.

In Regard to Neutrals.

Washington, Aug. 24.—The statement reads: It is a misapprehension to suppose the declaration of cotton as contraband will further restrict those consignments of cotton to neutral countries which are proved to be exclusively destined for the normal consumption of those countries. The embassy has no authority however, to give any assurance as to the immunity of particular shipments but under the procedure of international law relating to absolute contraband, evidence of ultimate enemy destination would be necessary to the condemnation of cotton as a lawful prize.

Plan Favored.

New York, Aug. 24.—Traders received favorably McAdoo's plan to deposit thirty millions in gold in federal reserve bank of the South to finance the early cotton crop movement.

"Blue Sky."

Once upon a time a city desk man who had saved a portion of his salary listened to a promoter from Santa Luena, Cal., whose company was distilling gold from sea water. He listened too long. Today the promoter has the gold and the desk man the water.

The next man who came by was a solicitor for the Spineless Cactus, Inc., of Corpus Christi, N. M. The desk man bought this spineless corporation never had backbone enough to get up and answer inquiries about dividends. This also was vanity and vexation of spirit.

The next man along represented the Fugless Fig Syndicate of Holy Smoke Valley, Ariz., and the next man hte Pineless Pineapple of St. Pollyann, Fla. The desk man is now saving up enough to pay for an excursion to the hole where these dis appeared.

Finally a sympathetic friend gave the desk man a bum steer on the wheat market. Like Paraph's ill-favored knie, this brute ate up the wheat and was none the fatter therefor, o it fell out that this investment, like unto its predecessors, buttered no parsnips for the desk man.

And all this while close about the daily walks of this desk man and out in nearby country places were lots and acres of earth so full of substantial value that you couldn't knock the profit out of them with a hickory club. The acres raised salable potatoes and the ois rose in salable value and people grew well-to-do on the proceeds.

Thus appears the truth of the adage. "Anybody can save money, but it takes a wise man to spend it."

Needed More Room.

During the run of a play in New York last winter a wobbly person teetered up to the box office one Saturday night when the place was packed and demanded a good seat, relates the Saturday Evening Post.

"Nothing left except standing room," said the box office man. "Sell your standing room for a dollar."

The wavering one produced a dollar and went inside. But so many general admissions were grouped at the rear that, over the intervening hedge of heads, he caught only vagrant glimpses of what was going on upon the stage.

He fogzgly considered the situation for a spell. Then he rocked his wearying way back to the box office window and put a second dollar on the shelf.

"Gimme puzsle one of them standin' rooms," he ordered; "can't see the show at all if you only got one."

Next to Nothing.
"Why does your wife dry the clothes in the cellar now? That isn't healthy, is it?"

"Dunno. To tell the truth, daughter is wearing so little that mother is ashamed to hang the stuff in the yard."—Judge.

SOUTHERN HAS MODERN COAL HANDLING PLANT

Gives Charleston Facilities Equal to Any on Coast—In Operation September 1st.

Charleston, Aug. 24.—Announcement is made by the Southern Railway company that the modern expert coal handling plant which it has just completed at Charleston will be put in operation for the handling of commercial coal on September 1st, giving Charleston facilities the equal of any on the Atlantic Seaboard for handling coal to be borne over seas and providing another expert outlet which will be of particular value to the coal producing territory served by Southern Railway and immediate connections.

The Terminal will have a capacity of forty cars or two thousand tons per hours which is as fast as any ship now in the coal carrying trade can take it. It will be operated entirely by electricity and will deliver coal into the holds of ships with a minimum of breakage by means of an electric conveyor.

In preparation for a greatly increased movement of coal to Charleston the Southern Railway has provided a storage yard of four hundred cars capacity and has also made extensive additions to passing tracks along the line over which coal will move.

Conclusive.

Penelope—Marcella was in the clairvoyant's room for two hours.

Percival—She must have been having her future told.

Penelope—Why are you so certain of that?

Percival—It would have taken the clairvoyant two weeks to have told her past.—Judge.

Sage and Sulphur Darkens Gray Hair

It's Grandmother's Recipe to Restore Color, Gloss and Thickness.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, keeps itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back to gloss and lustre and gives it an appearance of abundance.

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidney; they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean "logged" kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.
